The Flour That Blooms In The Spring.

The flowers that bloom in the spring, tra la—the violet modest and shy; the pansy a timid and diffident thing; the lilac with head lifted high; the trailing arbutus that creeps as infear; the fern with its dainty-etched frond; the red-bud a glinting through branches still drear; the genus called strawberry blonde! All those have been sung in the years that have zipped, at behest of afflatus divine, but never an ode or a ballad is lipped in the April of one-nine-naught-nine. The guys who drink deep at Pierian front to a new proposition now sing. As the price goes up higher each twangeth his lyre to the flour that blooms in the spring—Joplin Globe.

The National Magazine for May

While the National Magazine always fulfils its policy of embodying the national spirit and giving information concerning all national affairs each month, every issue breathes the special spirit of the month named on its cover page. The keynote of the May number is sounded on the back of the front-piece in the eloquent tribute by the editor to Mother's Day, which is celebrated on May 9th, the second Sunday in the month, when it is suggested that every human being wear a white flower in honor of "the best mother who ever lived—your own."

Administrations at Washington may come and go, but the inimitable Joe Chapple, editor of the National Magazine, always adjusts his Washington department to the men and the times, and never fails to give those intimate touches and interesting bits of information in a chatty vein, which reveal a veritable moving picture, and do more to inspire interest than would seem possible at a first casual reading. His description of the routine of President Taft's daily work at the White House in the early days of the administration gives, in a few lines, a clear glimpse of Washington on the men—he even tells how the White House table is spread for the President's dinner, being used instead of a plain damask tablecloth.

Mexicans Flee From Colima After Quake.

Mexico City, April 20.—A severe eruption of the Colima volcano, followed by an earthquake shock, has spread terror and confusion among the inhabitants of near-by towns and villages, a number of whom deserted their homes and fled to points outside the affected zone. News of the convulsion reached here today.

Gold Medal Contest.

A gold medal contest will be given at the Baptist church Friday evening, April 23. The entertainment is under the auspices of the W. C. T. U. Each contestant holds a silver medal. All are good speakers and the entertainment will be first class. Admission 15 cents.

WORK THAT TELLS.

Plenty of It Has Been Done Right Here In Monett

Cares that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see if they prove permanent. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Monett. People who testified years ago to relief from backache, kidney and urinary disorders, now declare that relief was permanent and the cure perfect. How can any Monett sufferer longer doubt the evidence?

J. W. Snyder, Harvey House, Monett, Mo., says: "I was a victim of kidney complaint for at least ten years and my back was lame and painful. The kidney secretions at times became too frequent in passage and dizzy spells and head aches were common. About four years ago when suffering in this way I began using Doan's Kidney Pills, procured from Knapp's drug store and before long they completely cured me."

The above statement was given in December 1906 and was confirmed by Mr. Snyder on December 9, 1908, he said: "I can still recommend Doan's Kidney Pills highly, although two years have passed since I used them. I cannot say too much in favor of this excellent remedy."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

AS A MATTER OF CONVENIENCE.

The Incandescent Electric Light is so far superior to any other as to be above comparison, cleanliness, ease of manipulation and exceeding beauty are factors which cannot be refuted. Besides you can obtain a decorative effect with electric lights impossible to accomplish with any other illuminant, and that, too, at a very reasonable cost. It will pay you to investigate further.
